## Placecheck Improvements Wester Loan / New Road / South Street Works starting February 2012

Perth & Kinross Council is planning to undertake the works identified through the Milnathort Placecheck project. The proposals have been discussed at public meetings, and also displayed at various public exhibitions. The roadworks are programmed to commence on 6 February 2012 (weather permitting) and last for approximately 9 weeks.

In Milnathort, where Placecheck began in 2009, a key area highlighted in community engagement was the need to improve visibility for pedestrians crossing local streets and vehicles coming out of side roads. New build-out areas will be created on New Road, Wester Loan, North Street and South Street to reduce crossing distances, improve safety for pedestrians and enhance visibility for drivers when emerging from side roads.

A number of drawings have been produced for the works and these can be viewed in the Kinross Community Campus and The Orwell and Portmoak Church Office. The drawings can also be viewed online at [www.pkc.gov.uk/placecheck](http://www.pkc.gov.uk/placecheck)

The Council regrets any inconvenience the works may cause however it is hoped that the improvements to safety will be welcomed by residents of both villages. Should the proposed works cause you any particular concerns or if you are aware of any persons with special needs living within your household, or adjacent properties please do not hesitate to contact Daryl McKeown on 01738 477387 to discuss these concerns.
